KEY INFO & WHAT TO BRING/WEAR

VOLUNTEER TO HELP

How to Slide

- Use the large gazebo for “sliders” to deposit their clean clothes & towel etc
- After slide, use the cold bucket wash stations to remove most of the mud
- Hot shower available ONLY after cold water wash
- Collect dry clothes from gazebo and use one of pop up ensuite tents for changing

What to wear

Mud clothes should be easy to take off when covered in mud and not get weighed down by it. Barefoot is best but gumboots often help children to build confidence and take that first step in (boots tend to eventually submerge!) Families should bring rainwear for themselves and their children.

Yes!

- Board shorts
- Leggings/bike pants
- Long sleeved t-shirts
- Gear like rain pants or overalls useful but not essential
- Similar advice for parents – old gym wear etc
- Some people like to wear goggles and wetsuits!

No (because these items get too soggy):

- Jeans
- Tracksuit pants
- Jumpers

Children should arrive at school ready in their mud clothes (with layers over the top)

- Getting changed into dry clothes as soon as you have had the hot water warm up
- Sit by the fire

Siblings

Our risk assessment for the slide is based on the children all being the same age/similar size. There are allocated times for each cohort to use the slide. To manage numbers, only children enrolled at BPCS can use the mudslide. Very young children can get cold very quickly, for this reason we do not allow children under 3 to go on the slide

Parent attendance

All families are invited to attend and participate in Mud Day, please advise your teaching team of your plans. If you cannot attend the event yourself, we will support your child to take part and enjoy the experience.

Parents are welcome on the slide as they can manage their own risk. **Please take care** regarding weight of adult vs weight of child sliding together.

If you leave early, please make sure you let one of the teaching team know you are taking your child home.
